

Brookfield Parks & Recreation is now recycling!

Although our ultimate goal is to recycle at all of our outdoor locations we are introducing our new pilot “single stream” recycling program at the following locations effective immediately:

- Brookfield Town Hall for the Summer Concerts in the Park
 - Kids Kingdom Playground and
 - Town Beach

The Town of Brookfield is introducing a new and improved recycling program for our community called “Single Stream Recycling.” Single Stream Recycling is easy, and accepts a wide range of materials including cardboard, paper, plastics, glass & metals all in the same container.

Why Single Stream Recycling? Research shows participation and recycling levels increase when sorting is not required. “Single Stream Recycling” is more efficient because collection trucks can hold more materials in a single load. New recycling technology allows materials to be sorted at a central location.

OK TO RECYCLE

Please remove all food residues.

- Yes** Clean paper and mail
- Yes** Newspaper and advertising
